I was on top #1 in Google for my keywords 'google payload' and 'Google Payload Review' and for keywords "Project quick cash " and "Project quick cash review" and "Google assassin" and "Google assassin review" etc at the launch time of these IM products and if you have little bit knoweledge of Internet Marketing , then i am sure you know how important it is to grab top position in Google when a new hot product is launched. And i am just doing that!**

If you are thinking this is all about Social bookmarking then think twice - You are wrong -**

**everybody and his brother can social bookmark a blog or webpage - but grabbing Top 5 in Google without a single drop is a consistent and strategic game and this is my exclusive offer to you!**

### **The Potentials of my system-**

[1] Dominate any niche. If you have any idea about a potential niche market , make a website or free blogspot blog to promote product for that niche ; use my techniques and see the result within 72 hours.

[2]CPA marketing for niche products. One of my student dominated one very popular google trend search term with my strategies and got 14,000 hits within 8 days and earned \$1780 promoting zip submit offer only.

[3] Pick up 10 niche products from clickbank and make 10 free blogspot blog. Use my SEO techniques and grab #1 position for some moderately searched [say 1200 to 2200 every month] keywords related to those products. This way you can make atleast \$250 a day. I am successfully doing it with some clickbank products like 'teeth grinding' , 'xbox 3 red light error' etc...

[4]Pick up 100 keywords which are less popular and less competitive.Say keywords which get 100 to 300 search a month. Make 100 free wordpress or blogspot blogs for these keywords. Add adsense ads to these blogs in optimized way. If every blog give you \$1/day that is \$100 in total from 100 blogs everyday...

## **FAQs-**

[1] Do I have to maintain my blogs or webpage?

Ans- I prefer wordpress platform blog or blogspot blogs for my SEO methods. Because after testing for a long time I am convinced that regularly updated blog or webpage is ranked better by google and usually does not drop from SERP. Yes you have to maintain your blog and update it with unique contents atleast 1 time a week.

[2] Do I have to write unique contents?

Ans- Yes , you need. If you cant write yourself I've given you a list of writers which charge as little as \$2 for a very good quality article.

[3]Do I have to buy high PR backlinks?

Ans- Never. It is a zero investment method. Never pay for high PR backlink. I'll show you how to get unlimited high PR backlinks.

[4] Is it legal?

Ans- Yes it is. We are not going to link spam anywhere.

[5] I've an old website . Can i push it in SERP using your method?

Ans- Honestly , i dont know. I've always experimented my method with a new blog or wordpress powered site. And my sites maintain its position in SERP. But i am confident that it'll work with an old website too.
